RE: DOCKET NO. 98N-1265

0860 '99 MAY 18 A9:53

To the FDA:

I send this letter as a consumer of health care services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer there should be no restrictions to the delivery of compounded medication prescribed for me, regardless of where I live or travel. The MOU must be amended!!!

The FDA is an agency of the U.S. Government that purports to be the "watchdog" for consumer safety. THIS IS NOT A SAFETY ISSUE!! As a governmental agency, the FDA also has a responsibility to be accountable to the people. Once again, the MOU must be amended!!

Signed: Diana Litt

State of Residence: VA

I personally use the compounded natural hormones for hormone replacement therapy and wish to be able to continue. Studies have been done both in and out of the US supporting their safety. I would say that the FDA has also a responsibility to assure that ~~drugs~~ are available in a timely manner to consumers. These hormones have been available in Europe for years.
